

Noise is the public enemy.  
Silence reduces the energy.

Want more electricity for an  
electrifying experience?  
Come find out more!

What's hot, buttery and  
corny?? Popcorn!

Drinking habits of plants, how  
will affect their growth?

Improve response time  
and memory. Video  
games aren't your  
enemy!

Can a bucket and a ball  
determine a formula?

The angle  
incidence, is it  
incidental?

An unknown ingredient causes  
chocolates to fight. Where the  
temperature determines the winner.  
Let the battle begin!

Pringles box, Shoe box or Mrs  
Coles makeup bag. Which will  
result in a tasty hotdog? Come  
join for a culinary adventure.

Have you ever wondered what  
it like to be an investigator?  
Are you missing some action  
in your life? Come see if you  
have what it takes today!!!

# Stem Fair

## 22 November

Red, Yellow, Blue. The three  
teams will fight it out to grow  
the highest amount of  
duckweed. Watch the war  
commence November 22.

This term in Maths and Science, the Yr 8 Academic Excellence Academies have designed a project based on their interests and have been working through the scientific method obtain their findings and discuss their results. Students are exploring a number of different sciences including physics, chemistry, biology and Maths.
