

Student Employment Services

Disability employment services for your students

Coact is committed to supporting your students throughout their job search journey.

Providing end-to-end recruitment support for your student

Helping your students find and settle into a job can be tough, and doesn't usually happen by chance.

We can help!

Whatever your student's career goals, our specialists will stay by your student's side – so they stay engaged and enjoy the benefits of meaningful employment.

CoAct in action

“Aiden got his dream job!”

Aiden lives on the Queensland Sunshine Coast, and has Autism. He found it tough getting through Year 11. But, with the help of CoAct and our Service Partner – Community Solutions, Aiden completed a Community Solutions SQW work skills course and a five-day work experience program with a local computer company. Now he's working two days a week repairing computers – his dream job!

Is your student eligible?

If your student:

- Has a verified disability
- Is studying full-time in their final year of secondary school OR is in year 10/11 and looking for a school-based traineeship or apprenticeship
- Is of legal working age
- Is enthusiastic to commence a career
- Has the capacity to work at least 8 hours per week
- Has the support of their parent/guardian and school to participate

...then it's likely your student is eligible for our FREE service!

Get started – it's so easy

Once you have identified an eligible student, it's important to discuss the options with them and their family, to get their informed consent to proceed.

We'll be in touch within 1 business day to set up our initial consultation, and then we'll reach out to your student when you're ready to receive this FREE support.

We listen

We offer a personal approach – our specialists will explore your student's career goals and develop a personalised job placement plan.

We find the Job

We'll help your student through the tough first steps like writing application letters, their resume, and help them to feel confident in their job interview – and we'll find the right job for them.

We help them perform well at work

We don't just find the job – we give your student job training and work with their employer to help them feel comfortable at work.

We keep in touch

We're with them all the way – we keep checking-in with them so they stay engaged, and feel in control and confident that they're on the right path.
