

2019 APPRENTICESHIP APPLICATIONS NOW OPEN

What's great about a Wilmar apprenticeship?

My work varies from working on loco controls, to industrial work, and even domestic work such as installing power points.

One of the highlights has been helping with the installation of two new mud filters at Victoria Mill.

I'm always impressed by the amount of knowledge held by the tradies here, and their willingness to share it.

Adrian Vaccher - Second-year Electrical Apprentice

Wilmar Sugar Australia is the nation's largest sugar producer and a major provider of renewable electricity and BioEthanol. Through our joint ventures we also market a range of sugar and sweetener products under the familiar brands CSR, Chelsea and Equal.

An apprenticeship that's more than just a job.
