

Attention – STEM Students

Real Engineering, Real Engineers

REGISTER NOW!

Engineering Link Project – July 2019

Senior school students will actively participate in two days of intensive engineering projects designed to showcase the career as it really is!

Region specific flyers are available – download from our website (see below).

Students work in teams with real engineers in disciplines such as:

- Electrical & Communications
- Robotics
- Civil & Structural
- Environmental
- Mechanical
- Aeronautical
- Defence Force Engineering

Note: different locations will have different disciplines, depending on the local expertise.

Rockhampton – July 1 & 2, Brisbane – July 4 & 5, Cairns – July 22 & 23, Townsville – July 24 & 25

Accommodation available in Rockhampton, Cairns and Townsville for regional students.

QUEENSLAND EVENTS

The Engineering Link Group is a not-for-profit organisation that offers award-winning experiences for Year 10, 11 and 12 students **and their** teachers, by linking them with engineers.

The workshops are hands-on and directly related to the Australian and Queensland curriculum.

STUDENT WORKSHOPS:

Engineering Link Projects allow students to work with engineers and scientists on a range of day-long, hands-on projects that use engineering principles to demonstrate how the maths and science they are learning NOW applies in the real world. They also get a real understanding of what a career in engineering could be like for them.

TEACHER WORKSHOPS:

Linking Engineers and Scientists with Teachers are workshops that provide teachers of Science, Mathematics, Engineering and Technology curriculum-based activities and experiences that are exciting, relevant and student-centred. They also allow teachers to meet and work with engineers from their community.
