

The CSQ Try'a Trade program allows students the opportunity to do just that - try a trade – and find the one that could be right for them.

Together with WorldSkills and Central Queensland University, the CSQ Try'a Trade program delivers an interactive setting that allows students to try their hand at various skill and trade areas.

The displays are entertaining, informative and offer access to some of the basic skills involved within a range of fields. Students also gain invaluable career advice from apprentices, trainers, local employers and industry representatives.

Event details
