

**\*\* PUBLIC FORUM \*\***

## **'Climate change' concerns and the magnificent Great Barrier Reef**

**Monday 2nd September, 7 pm, Ocean International, Mackay**

**Attention: The School Principal and Head of Science Department**

### **Climate change concerns and the magnificent Great Barrier Reef**

**Are these concerns driven by evidence or belief?**

Mackay Region Safe Communities is hosting a public forum for Dr. Marohasy and award-winning cinematographer Clint Hemsall after they return from filming and researching on the Great Barrier Reef for 10 days. In essence, they will be 'out of the water, and into the boardroom' with up-to-the-minute' footage and information about the health of the Great Barrier Reef.

**Dr. Marohasy** is a renowned scientist, author, and speaker, who has been researching the health of the reef. She will bring the latest information to the public of Mackay and open the forum to a Q&A session after the presentation.
