KOMATSU

Since 1921, Komatsu has stood for unrivalled quality and reliability. Our enduring global success stems from the principles of our founder, Meitaro Takeuchi, who envisioned a sustainable future built through quality, technological innovation, globalisation and talent development.

These defining principles, along with an emphasis on safety, compliance and social responsibility, remain part of our Komatsu DNA.

At Komatsu, we don't just offer you an apprenticeship, we offer the tools to excel within your chosen trade as well as the opportunity to have a career that has the potential to take you across the world, through a variety of roles working with state-of-the-art earthmoving, mining and construction Komatsu machinery.

Why start an Apprenticeship with Komatsu?

An apprenticeship is a learning pathway that allows you to combine on-the-job training and formal study to achieve the skills needed to gain a qualification for a particular trade.

Komatsu's award-winning apprenticeship is designed to provide apprentices not only the tools needed to succeed in completing a trade but also provides training relating to the skills needed in any career.

As an apprentice, you will:

- » Learn valuable, nationally recognised job skills and qualifications
- » Work with state-of-the-art equipment of an OEM company
- » Learn while earning an income
- » Have access to Komatsu specific training programs
- » Be supported by a dedicated Apprentice technical capability team
- » Learn business and customer relations skills
- » Be provided with mental health awareness and resilience training
- » Opportunity to rotate amongst the business and departments, for broader learning experience

Programs on Offer:

Komatsu typically offers eight key apprenticeships across the cross the country which include:

- » Plant Mechanic
- » Electrician
- » Auto Electrician
- » Boilermaker
- » Mechanical Fitter
- » Electrical Fitter
- » Fitter Turner
- » Automotive Sales

Andrew, 2nd Year Plant Mechanic Apprentice:

"I am enjoying every piece of the apprenticeship. I love going to work and often find myself bored as on weekends when there is no work. I learn something new every day and crave the challenge of every job that lies ahead."

Alex, 1st year Electrician Apprentice:

"I chose an apprenticeship with Komatsu as I knew I was joining a highly respectable industry leading company and receiving a high degree of OEM education, learning from the best technicians along the duration of my apprenticeship to become the best technician I can be and a proud member of the Komatsu family."

Layla, 1st Year Plant Mechanic Apprentice:

"Komatsu's apprenticeship program is really good with what I have experienced so far. I know others in the trade that don't get as many opportunities to learn as us. Our learning so far has been a really good introduction to the company and there's so much more to learn in the future."

At the branch, we have been buddied up with qualified technicians. This has been very helpful with starting out in a new company and when working on machines as there's someone there who you can constantly pick knowledge off which I feel is a more effective way to learn and make you more confident with your work."
